

My Photography

Jean Davids

Photography styles I enjoy are macro/
close-up, animals, birds, landscape and
plants/flowers.

I have done a stint of taking family and
wedding photos but that is not what I
enjoy most.

Primary cameras I shoot with are all Nikon. I use the Nikon D500 and the Nikon D7200. I use Tamron lenses primarily. Main one is their 18-300mm lens. Also have their 28-270mm and their 200-600mm. All are zoom lenses. I have a macro lens that I got from Tamron, too. Haven't used it much yet.

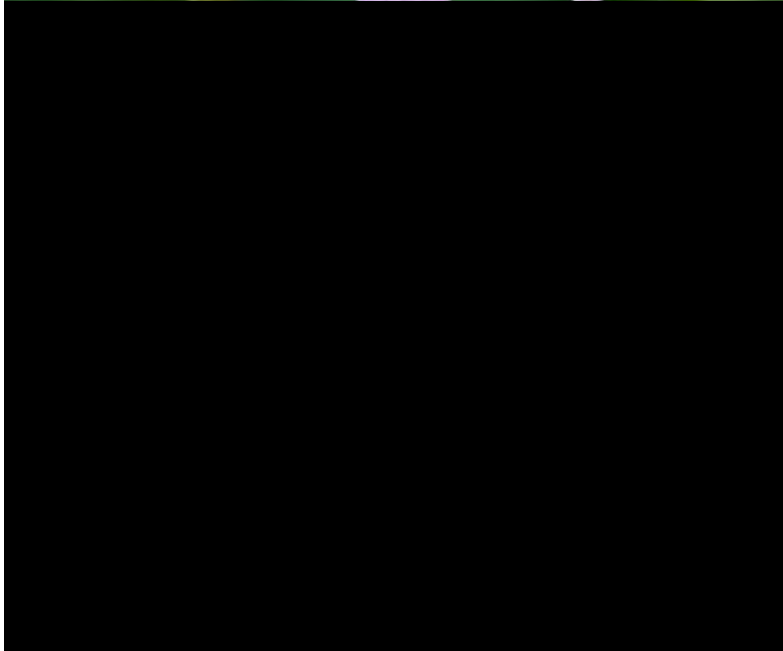

I also like to shoot video and have several different video cameras. Actually, I just have a lot of cameras.

Macro/Close-up

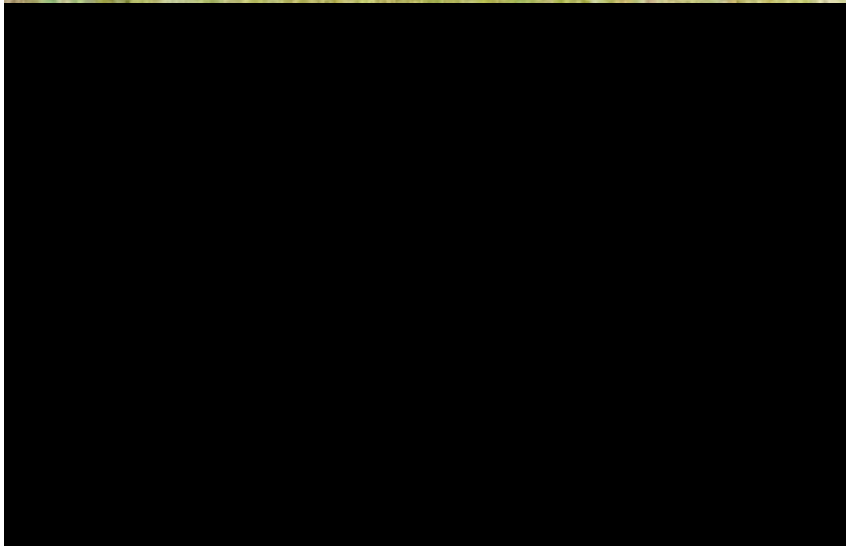

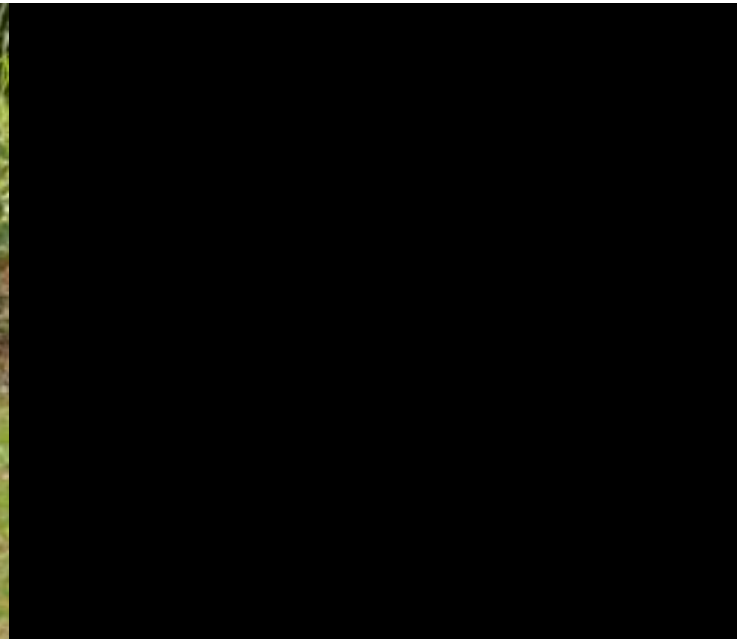

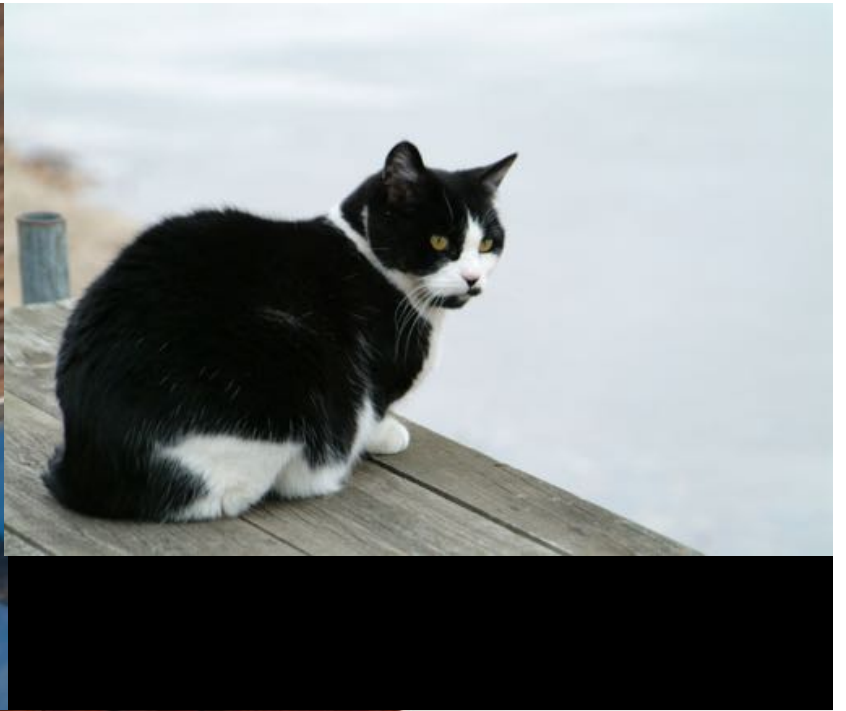

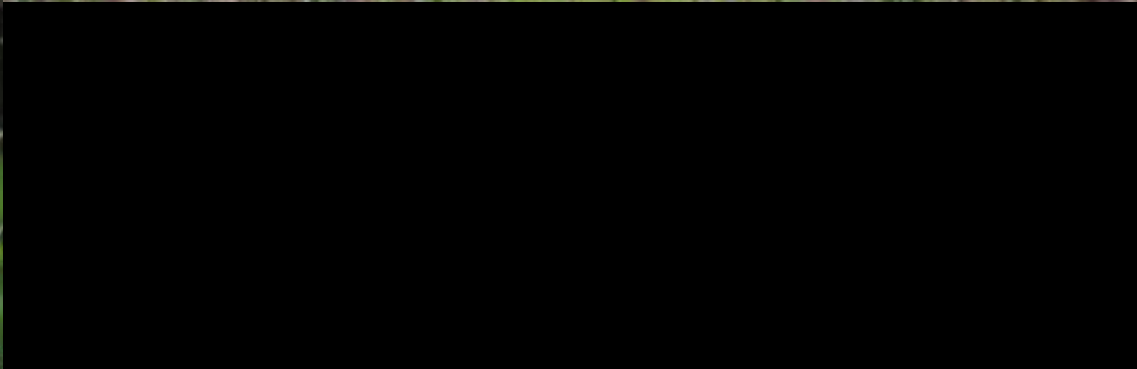

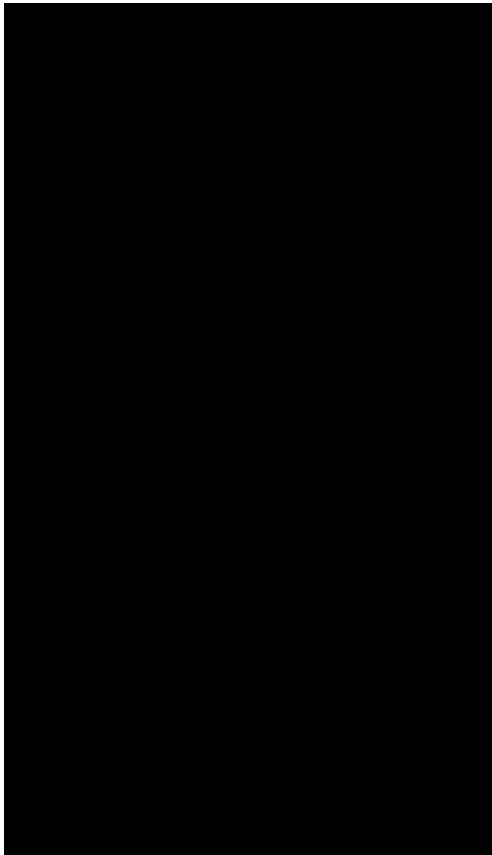

Animals

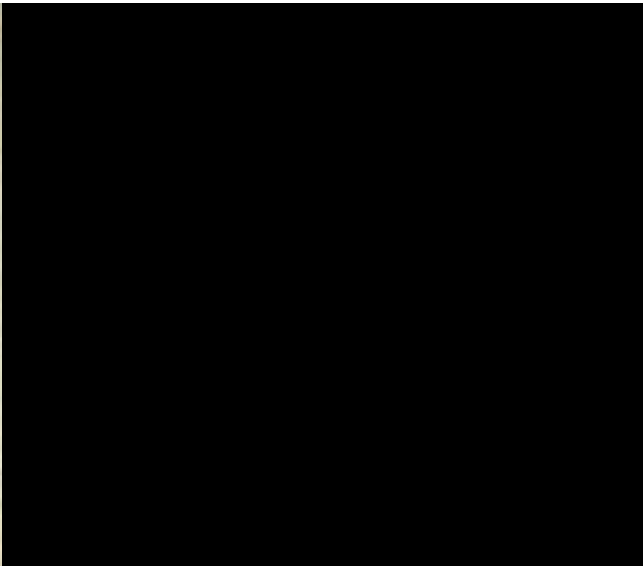

Birds

Bottom two photos were published
on a magazine cover and the back
cover of a book

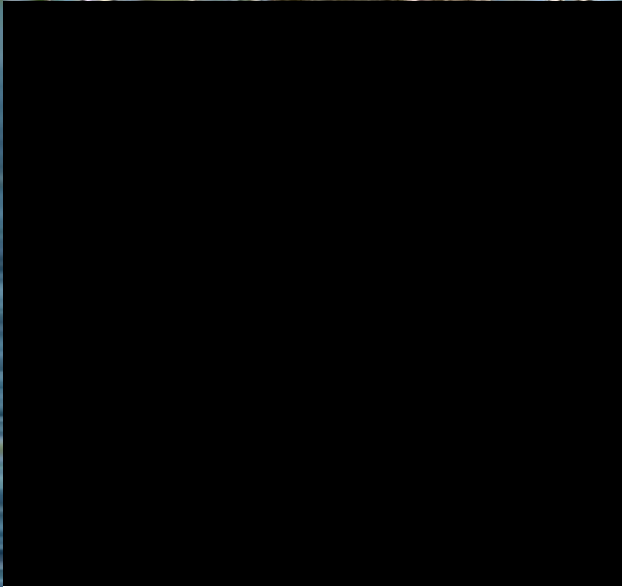

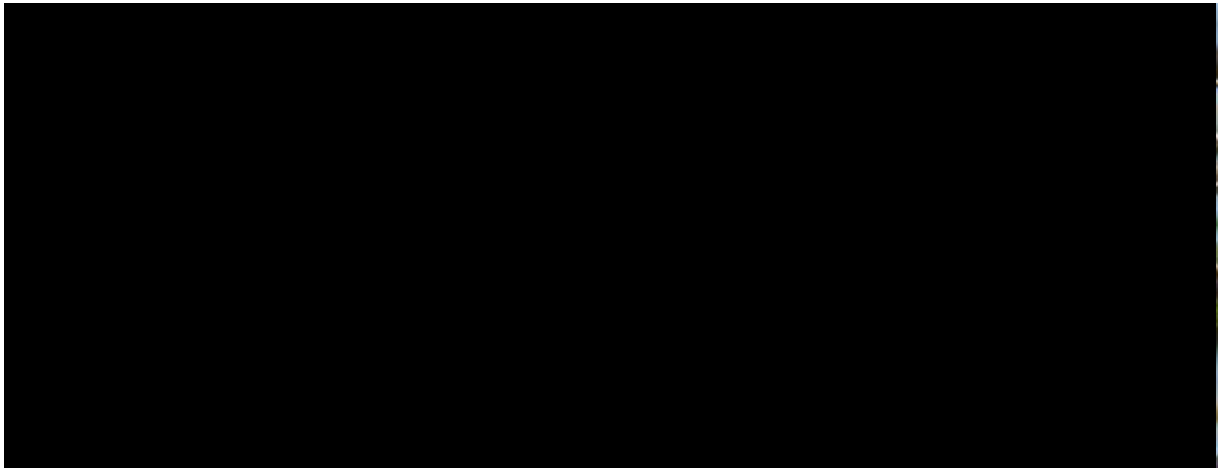

The Boys
